Subject: Important Update: School Water System Cleared for Full Use

Dear Alvina Families,

As we prepare to kick off an exciting new school year, I am pleased to share some wonderful news regarding our school facilities.

Following the recent repairs to our water infrastructure, we have officially received a clear water system status from our latest round of rigorous water testing. Safety is always our top priority, and these tests confirm that our water fully meets all health and safety standards.

What This Means for the New School Year

Starting on the first day of school, all faucets and drinking fountains will be fully open and accessible to students once again. This includes:

- Hallway and Playground Drinking Fountains
- Classroom Drinking Fountains and Sinks

Students are welcome to use the drinking fountains directly or continue bringing reusable water bottles to fill throughout the day.

We believe in open communication and want you to feel completely confident about your child's environment. If you have any questions regarding the water system repairs or testing results, please feel free to swing by the main office.

Thank you for your patience and continued support as we worked to resolve this matter. We can't wait to welcome your children back for a healthy, happy, and successful school year!

Respectfully,

Mike Iribarren
Superintendent/Principal
